## MHL810 Double Sweeper 8x 10W 4-in-1 DMX

The MHL810 Double Sweeper creates exciting lighting effects with its quick sweeping beams and 8-Zone chasing, pulsing and strobe effects. This unique fixture features two independently tilting bars (each with 4 lenses) that project tight, 4 degree beams of light from 10 Watt 4-in-1 LEDs. The Double Sweeper offers 1, 6, 12 or 36 DMX channel modes and a 4-Button LED DMX menu. In the 36-channel mode you can control the colour of each lens individually. It may be controlled through its own built-in programs or a DMX controller. Best when used in multiples, the Double Sweeper is designed for stages, nightclubs and mobile entertainers.
