BWA536 Aluminium IP65 LED PAR 18x 12W 4-in-1

The BWA series is a series of robust aluminium PARs specifically designed for outside usage. By using the latest LED technology and advanced lenses the BWA series is able to create beautiful wash effects. These fixtures are suitable for a wide range of applications from uplighting a large venue or building to lighting up a stage for live performances. The BWA series also sports a convection cooled cast aluminium housing with watertight internal gaskets and weatherproof power and DMX cable in/out connections. All models come with an infrared remote control.
