PS12W Pin Spot 12W 4-in-1 LED

The PS12W is a bright pinspot with a 12 watt 4-in-1 LED. The LED is build up with the colours red, green, blue and white. Because of the narrow spot it's ideal for aiming at mirror-balls. Giving that galactic milky-way effect when the bundle reflects on the mirrors. Because of the internal cooling unit there is no need for a noisy fan, making the PS12W also ideal for in-store installations. The spot can be set in different preset programs to change colours over time or be set to a specific colour. Even after turning off the power, the spot will remember its last setting.

No. of colours	4
Colours	Red, Green, Blue and White
No. of LEDs	1x 12W 4-in-1
Power supply	100~240Vac / 60-50Hz
Consumption	12W
Dimensions	150 x 88 x 62mm
Weight	0.3kg

- 12W 4-in-1 LED
- RGBW Colour mixing
- Special lens to create a narrow bundle
- 10 Preset programs
- Internal cooling without fan
- Including mounting bracket
