AP1200A Hi-End Active Speaker 12"

A 12" speaker in a strong ABS cabinet featuring a high quality 600W amplifier for excellent sound reproduction and a tremendous performance. Comes with a powerful mid-low woofer and a high compression dynamic horn driver. The line output allows daisy chaining of additional speakers. The durable impact resistant moulded light weight enclosure is complemented with a tough metal grille that protects the woofer. This active speaker can be used standalone and is ideal for use in bars, restaurants, small theatres and halls, fitness and conference rooms and on stages.
