

CITRONIC CL-22 COMPRESSOR LIMITER 170.933

Professional compressor for stereo signal processing. The limiter protects your sound installation against extreme peaks and the compressor ensures that soft parts of the music don't go lost and optimizes the sound pressure. Fitted with clear LED level indicators on every channel.

- Protects amplifiers and speakers
- Balanced / unbalanced input and output via XLR/ 6.3mm Jack
- SMT technology
- Each channel fitted with a noise gate
- 19" rack mounting
- Bypass switch
- Gated compressor limiter
- Start and release time of threshold and compress level adjustable
- Each channel with one noise gate and adjustable threshold
- Adjustable input/output-gain
- LED VU-meter

Frequency response	20Hz - 20kHz
THD	<0.02%
Signal to noise ratio	>97dB
Input impedance:Balanced	40kOhm
Input impedance:Unbalanced	20kOhm
Output impedance:Balanced	102 Ohm
Output impedance:Unbalanced	51 Ohm
Power supply	230Vac, 50Hz
Dimensions	482 x 128 x 45mm
Weight	2.05kg
