

172.772 PDX010 Phono Pre-amplifier

The PDX010 Phono Pre-amplifier is ideal for amplifiers without phono input. This pre-amplifier with RIAA correction will amplify the weaker signal from your device to a normal line-signal. The RIAA will improve the sound enormously. With this phono pre-amplifier you can reconnect your old devices onto your modern mixer.

- RCA in-/output
- RIAA equalizer
