PDS-M01 Studio Professional FET Condenser Microphone

This professional condenser microphone using carefully selected FET transistors, specially chosen for its low distortion, superior signal-to-noise ratio, good cardioid pattern, low self noise, maximum SPL capacity and accurate reproduction of the sound. A perfect choice for (home) recording studios, stage performances, broadcasting stations, computer etc.

Frequency response	30Hz - 20kHz
Impedance	200 Ohm
Sensitivity	-34dB (± 2 dB) / 1kHz 12.5mV/Pa
Battery	Phantom 48Vdc

- FET condenser microphone
- Increased dynamic range
- Low self noise and high S/N ratio
- Highest SPL
- 48Vdc Phantom power
- Good cardioid polar pattern
