## All in one HD CCTV-System 4 CAMS/1TB HDD

This digital CCTV system composed of a digital hard disk recorder, a 1TB hard disk and 4 colour CMOS cameras offers everything that you can expect from such a system such as Mobile Viewer, Email Alert Link, DVR Backup. The pictures can be displayed on a monitor or a PC, also remotely. The CMOS camera pictures can be viewed individually or all 4 together. The various record modes allow an optimal use of the hard disk space. Once installed, you will know exactly what happens around your house, company, warehouse, etc.!
