952.220 HS30M Music Horn Speaker 30W 100V - IP66

The HS30M is a high performance weatherproof horn speaker for use in installations requiring a high output speaker. The speaker is especially designed for playing music over larger distances. Thanks to the special horn shape, the music is "projected" so to speak, making it better audible at longer distances. The housing is made of ABS plastic and is a IP66 weatherproof rated. For use in example: schools, shopping malls, factory halls, DIY stores, sporting arenas, stadiums etc.

- High power music horn
- Weather-proof robust ABS housing
- IP66 rated
- Supplied per piece
